

SAVE CALTRAIN ELECTRIFICATION & 9,600 JOBS NATIONWIDE

The Trump Administration just put funding to electrify Caltrain on hold, a move that could kill the entire project.

WE CAN'T LET THAT HAPPEN

ELECTRIC TRAINS ARE

- » **FASTER**
- » **MORE FREQUENT**
- » **HIGHER CAPACITY**
- » **CLEANER & QUIETER**

Days before work was to begin, Secretary of Transportation Elaine Chao postponed a \$647m federal grant needed for construction & to replace aged equipment, affecting quality of life for millions in a major economic center.

WHAT CAN YOU DO RIGHT NOW?

Tell President Trump and Secretary Chao that we need an electric Caltrain **now**, and we won't stand by while they play politics with public transportation and our economy.
